

Dungeons & Dragons: Complete Novel collection

A number of new additions should make this D&D novel collection “feature” complete, at least until the last book in *The Way of the Drow* trilogy is released next autumn.

Future releases will concentrate on improving the quality and proofreading the non-retail books, prioritising self-scanned ones.

To keep improving the quality of this collection I would appreciate it if details of any improper formatting, bugs, wrong spelling, and other errors are sent to me so I can correct them in a future release. If a retail copy of a non-retail novel in this collection surfaces I wouldn't mind a copy of that either. Contact me at locklearx@keemail.me.

If you enjoy these books, please support the authors for their hard work!

Special thanks goes to:

Mizenkupa - For the excellent starting pack

Dead^Man - For a number of excellent book scans

KAT Community - For providing a few hard-to-find digital copies

NeverWinter - For providing the last missing retail copies

... and all other unknown contributors that have added to the online collection over time

Quality and versioning:

All retail novels remain untouched, but the non-retail novels have been extensively cleaned up, modified, or even scanned as needed. This includes, but is not limited to

- ❖ Stripped away the digital vandalism done by Calibre, Word and other editing tools
- ❖ Removed all in-line formatting
- ❖ Added custom css and proper fonts
- ❖ Added proper cover scans
- ❖ Layout, paragraphs and text formatting verified against printed version
- ❖ Spellchecked, corrected OCR errors, and restored missing sections
- ❖ Validated with FlightCrew and EPUBCheck
- ❖ Hidden changelog added to their title page

Versioning, broadly summed up

- ❖ **v3.x** - Unverified, but has proper formatting
- ❖ **v4.x** - Publication is verified and of release quality. Spellchecked, with well formatted chapters, paragraphs, and layout validated via printed source-material. Passes FlightCrew and EPUBCheck validation
- ❖ **v5.x** - Publication is proofread, and very close to retail quality
- ❖ **retail** - Untouched retail versions

Books not part of the other realms, cross-realm releases, or series that span multiple realms (copies are also duplicated to their home-realm).

- ❖ Non-retail novels have all been proofread
- ❖ The Gates of Madness was released as a 5-part e-book in other publications
 - Part 1 - The Ghost King
 - Part 2 - The Mark of Nerath
 - Part 3 - City Under the Sand
 - Part 4 - Whisper of Venom
 - Part 5 - Lady Ruin

/Birthright

- ❖ Non-retail novels have all been proofread
- ❖ *The Falcon and the Wolf* was cancelled by TSR/WotC and never officially published, but was later made available by as an “official” pdf-download on their site

/Dark Sun

- ❖ *Untold Adventures Anthology* contains Dark Sun short story
 - Blood Oasis

/Dragonlance

- ❖ *Dragons: Worlds Afire* contains Dragonlance short story
 - Here be Dragons { A Kender Tale }

/Eberron

- ❖ *The Lanternlight Files #3 - Death Comes Easy* was never released.
- ❖ *Untold Adventures Anthology* contains Eberron short stories
 - The Forge of Xen'drik
 - Arena of Shadows
- ❖ *Dragons: Worlds Afire* contains Eberron short story
 - Principles of Fire

/Forgotten Realms

- ❖ *Untold Adventures Anthology* contains Forgotten Realms short stories
 - Tallfolk Tales
 - Watchers at the Living Gate
 - Lord of the Darkways
 - Dreaming of Waterdeep
- ❖ *Dragons: Worlds Afire* contains Forgotten Realms short story
 - If They Ever Happen Upon My Lair
- ❖ *The Harpers: 17 - Rise of the Blade* was cancelled, and never officially released by TSR/WotC. It was self-published by Charles Moffat in HTML-format, a decision he later regretted as it was “*unfinished and rife with spelling errors, grammatical errors and other problems.*”
- ❖ *Songs & Swords: 06 - Reclamation* was not completed by the author Elaine Cunningham, and never released
- ❖ Rise of the Underdark event has tie-in novels
 - Sword of the Gods: Spinner of Lies

- Prince of Ravens
- Spider and Stone
- ❖ Shadowbane “Series” consists of the following novels
 - Downshadow
 - Shadowbane
 - Shadowbane: Eye of Justice

/Greyhawk

- ❖ Includes the unofficial *Gord the Rogue* series.

Gord the Rogue, books 3-7, has a very bad typesetting for scanning, and contained quite a number of (unavoidable) OCR errors, and the source material was thus pretty poor. Especially characters **l i f t** are problematic, and also discerning between punctuation characters , . . Hundreds of errors were corrected during verification, spell checking, and regex searches, but a large number has most likely slipped through and will require proofreading to find.

/Mystara

/Planescape

- ❖ Non-retail novels have all been proofread
- ❖ *Fire and Dust* by James Alan Gardner was never officially published, but was released as a free-to-download [HTML eBook](#)

/Ravenloft

Dominion was an unsuccessful attempt at a series reboot. Few books reached actual publication before the series was once again cancelled.

“Although Ravenloft was created for the Dungeons and Dragons game, the Dominion line was meant to give it a new flavour—specifically, rather than drawing characters and domains from various D&D worlds, it would draw them from various periods of real-world history.”

- ❖ *Dominion: Black Crusade* was cancelled by TSR/WotC and never officially published, but was later made available by as an “official” pdf-download on their site
